

Get card account list - GET/card-accounts		
Attributes	Description	GB Individuals
accountId	Internal technical account identifier. The ID will point at an agreement (containing 1-n cards) rather than a physical credit card.	eg <a href="#">ae577250-6cf3-11e9-9c41-e957ce7d7d69</a>
maskedPan	Number of the credit card (16 digits). The last four digits will be shown and the rest are masked with asterisks (*).	eg <a href="#">*****3283</a>
name	Name of the card holder.	eg <a href="#">Linda Smith</a>
currency	Currency code of the card, according to ISO4217.	eg <a href="#">GBP</a>
product	Card account type.	eg <a href="#">Charge Card</a>
creditLimit	Credit limit expressed in the currency of the credit card. Contains the "currency" and "amount".	eg <a href="#">GBP 2000</a>
balanceType	Balance type sent along with the card account information.	<a href="#">AVAILABLE_AMOUNT</a> (Available balance calculated at the time of request and includes booked transactions, reservations and credit line.) <a href="#">CARD_BALANCE</a> (Shows the total amount of transactions that have made since the last statement. Always a negative amount or zero.)
balanceAmount	Available amount expressed in the currency of the credit card. Contains the "currency" and "amount".	eg <a href="#">GBP 2000 / -1000 (Card balance)</a>

Get card transactions - GET/card-accounts/{accountId}/transactions		
Attributes	Description	GB Individuals
name	Name of the card holder.	eg <a href="#">Linda Smith</a>
status	Booked / Pending status	Only booked (not pending). eg <a href="#">Booked</a>
transactionAmount	Amount contains the "currency" and "content" of the transaction.	eg <a href="#">SEK 100 / 105.5 / 999.99</a>
valueDate	The date the transaction debits / credits the account.	eg <a href="#">2020-02-01</a>
creditDebit	Transaction is either a credit or debit on the card account.	eg <a href="#">Credited / Debited</a>
transactionDetails	Details of the transaction. Max length of this field is 95 chars.	eg <a href="#">WAITROSE OXFORD</a>
maskedPan	Number of the credit card (16 digits). The first and last four digits will be shown and the rest are masked with asterisks (*').	eg <a href="#">*****3283</a>

Other important information	
Maximum period and number of transactions	For Individual banking customers, the maximum period of transactions retrieved is 13 months back from today and the maximum number of transactions is 1,000. A message will be delivered if the number of transactions to be retrieved exceeds the maximum. If this is the case, please limit the search.
Search transactions by entering a date interval	Rules for date intervals: <b>1) dateTo = not provided, dateFrom = provided.</b> If dateTo is not provided, it is set to the current date (i.e. today). And if dateFrom is provided, transactions are delivered between dateFrom and dateTo. <b>2) dateTo = provided, dateFrom = not provided.</b> If dateTo is provided, but dateFrom isn't provided, then dateFrom is set to 30 days back from dateTo. Transactions between dateFrom and dateTo are delivered. <b>3) dateTo = not provided, dateFrom = not provided.</b> If dateTo and dateFrom are not provided, dateTo is set to the current date (i.e. today) and dateFrom is set to 30 days back from today. Transactions between dateFrom and dateTo are delivered e.g. 2020-01-01 - 2020-01-31.
Order of transactions	The results show transactions by valueDate order.
Transactions delivered	Only booked transactions are delivered. Pending transactions are not included.
